1.1 Introduction

1.1 Students enrolling on a programme of study are required to comply with the University's Regulations [https://www.mdx.ac.uk/about-us/policies] and the financial regulations set out in this document.

1.2 You should understand that by enrolling online on MyMDX at Middlesex University, you agree to be bound by these terms and conditions.

2.0 Tuition fee charges

2.1 The amount that you will pay in respect of tuition fees is dependent on the course that you wish to study and whether you wish to study on a part time or full-time basis. Full time degrees are charged a flat rate which covers up 120 credits per annum, and any credit taken above this level will incur additional charges at the prevailing credit point rate. Part time study is usually charged on a credit point basis.

2.2 Tuition fees may be subject to annual inflationary increases in subsequent years of study. You will receive notification of the tuition fees in your offer letter.

2.3 Once you have enrolled you are responsible for the payment of your tuition fees and any other associated charges, including any amounts due from third parties which are not paid. Failure to settle tuition and pre-sessional fees on time will entitle the University to enforce financial holds as specified in section 13 (Financial Holds) below.

2.4 Middlesex University reserves the right to reassess any student's tuition fee liability should new information come to light that may affect the original assessment e.g. the tuition fee incorrectly registered on student's account and needs correction. You should also understand that if you change programme or modules during the course of the year the same tuition fee may not apply, and therefore your tuition fee charge may also change to the relevant tuition fee for the programme or module. Before you decide to change a programme or module you should speak to the University's progression and support team to be clear on any change to your tuition fee liability.

2.5 If you are postgraduate student enrolling to undertake a dissertation only, or if you fail to complete your dissertation within one year of completing the taught element of your programme you will be charged a 'dissertation only' fee.

3.0 Equivalent or Lower Qualification (ELQ)

Government funding for students who are studying for a qualification that is the same level or lower than a qualification that they have already studied has been withdrawn from universities and colleges.

3.1 If you are a UK student and returning to study a second undergraduate degree at the same or lower level as one you have taken previously, you are unlikely to be eligible for a fee loan from Student Finance England (SFE). Please seek advice from Student Finance England.

A purchase order (as provided by your Sponsor) containing your details including your student ID and the value of your sponsors' contribution should be sent online by you via https://unihelp.mdx.ac.uk/enquiry/ or through the Applicant Portal where you have access: Online Applicant Portal. You can also view and download our sponsor requirements .

6.4 The University reserves the right to reject sponsorship purchase orders or letters if they are not original documents, do not contain the correct information, or if they are found not to be issued by a recognisable third-party organisation. All invoices issued by Middlesex University must be settled in full within 30 days. If invoices are not paid in accordance with these terms, the debt will revert to you.

The University will be sympathetic and assist where it can, however the quality of teaching is dependent upon funding and so it must act to recover all outstanding debts.

15.1 International students are required to pay a tuition fee deposit in order for a certificate of acceptance of studies to be issued and to secure a place at the University. The value of any deposit amount paid is deducted from the tuition fee due, upon enrolment. Students who defer entry are permitted to carry forward the tuition fee deposit for four academic years only.

15.2 The minimum Tuition Fee deposit payment will only be refunded in the following circumstances:

- The applicant has been refused a student visa. A clear copy of the complete visa refusal letter issued by the UK Visa and Immigration (UKVI) must be submitted with any request, as evidence.
- The deposit was paid while the applicant held a conditional offer; the applicant failed to meet the conditions of the offer and was not admitted to the University for the relevant course and start date specified in the offer letter.

15.3 **Other conditions relating to the refund of Tuition Fee Deposits:**

- If after payment of a deposit, the applicant decides to defer entry to the following academic year, the deposit will be held over to the following academic year.

- Once paid, deposits cannot be transferred to another individual. Refunds will only be made to the individual or organisation that originally paid the deposit. If a third party has paid the deposit on behalf of the applicant, we are unable to refund the deposit directly to the applicant.

- Refunds can only be made to the account from which the payment was made originally.

- Refunds will be made at the rate of exchange in force on the date the refund is processed.

- Any charges levied by the receiving bank will be borne by the applicant.

- In no other circumstances will the deposit be refunded. You should therefore only pay a deposit if you are certain you are able to take up your place at Middlesex University.

- Refunds will not be made where the student has arrived in the UK and commenced Or failed to commence studies with the University. Any refunds would then need to fall in line with normal University withdrawal policies – See section 14.

15.4 Refunds will not be made if the applicant/or registered student, or any representatives acting on their behalf, are found to have provided fraudulent information, whether knowingly or unknowingly, in support of the University or UK Visa application, or if the student visa is refused based on a previous record of fraud or non-compliance with Immigration rules, whether in the UK or overseas. In such circumstances any offer from the University will be invalidated and we will retain the deposit payment. The process for the removal of an offer when fraudulent information has been used to gain admittance is outlined in the University Regulations point B7. UKVI will also be notified.

16.0 Interruption

16.1 Where a student interrupts their enrolment, but does not stop being a student of the University, section 16.2 below will apply.

16.2 Where payment has been made in excess of the tuition fee charged (including non-refundable deposits) the overpayment will not be refunded; however, the credit balance will be carried forward to be applied against future tuition fee charges. The credit may be carried forward for up to one academic year.

17.0 Refunds

17.1 If you decide to withdraw from a course you must notify UniHelp in writing of your decision. In the absence of written notification of withdrawal to UniHelp you shall be assumed to be in attendance and as such liable for the payment of tuition fees for the academic year.
